PRINCE2 Agile®
Foundation and Practitioner courses

PRINCE2 Agile® courses combine a more flexible approach to project management and provides a greater capacity for review within projects.

In this style of PRINCE2® you'll learn a methodology that focusses on short increments and frequent deliveries, continuous involvement of staff across different roles, and a cooperative approach.

What will I learn?

By the end of the PRINCE2 Agile Foundation and Practitioner course you should:

- ✓ Understand the basic concepts of common agile ways of working
- ✓ Understand the purpose and context for combining PRINCE2 and the agile way of working
- ✓ Be able to apply and evaluate the focus areas to a project in an agile context
- ✓ Be able to fix and flex the six aspects of a project in an agile context
- ✓ Be able to tailor the PRINCE2 principles, themes, processes and management products to a project in an agile context
- ✓ Be fully prepared to sit the PRINCE2 Agile Foundation and Practitioner examinations
